b Centre for Drug Research, Division of Pharmaceutical Biosciences, Faculty of Pharmacy, University of Helsinki, Finland

The authors regret that there is an error in the equation of pg 117 that needs to be corrected:

Drug clearance in rabbit and human vitreous correlated well
($\rho = 0.91$; Rabbit $\text{CL}_{\text{IVT}} = 1.41 \times \text{Human apparent } \text{CL}_{\text{IVT}}$ + 0.04, units are ml/h; $R^2 = 0.82$).

It should be:

Drug clearance in rabbit and human vitreous correlated well
($\rho = 0.91$; Human apparent $\text{CL}_{\text{IVT}} = 1.41 \times \text{Rabbit CL}_{\text{IVT}}$ + 0.04, units are ml/h; $R^2 = 0.82$).

The authors regret for the inconvenience caused.
