Tang^{aw}, Bernard Yu-Hor Thong^{ax}, Rudolf Valenta^{ay,az,ba}, Robert A. Wood^{bb} and Torsten Zuberbier^{bc}

The publisher regrets we have been made aware of the below errors:

- 1) In Table 15, row NOVEOS chemiluminescent assay is written "utilizes 40 μ L (0.04 ml) of sample per result". **The correct value would be "4 μ L (0.004 ml)" of sample per result.**
- 2) In Table 16, is written "NOVEOS menu has 79 available allergens, consisting of 69 extracts and 10 molecular allergens". It should say **"NOVEOS menu continues to increase and it has 152 total allergens with 108 extracts and 44 components"**.
- 3) In Table 15, row "Euroimmun", column "Patient's serum", is written "1000 ml". **The correct value would be "0.1 ml (-0.4 ml)".**

The publisher would like to apologise for any inconvenience caused.
