The authors regret that in the text we use wrong compound code for our reference PREP inhibitor (KYP-2407) as the correct compound used in the study is KYP-2047. The compound was introduced correctly in Materials and Methods (section 2.1. PREP inhibitor; 4-phenylbutanoyl-l-

prolyl-2(S)-cyanopyrrolidine) but the wrong code was used elsewhere in the text.

The authors would like to apologise for any inconvenience caused.
